

# Htet Min Paing

## Software Developer

An university student in computer network degree, who is strongly passionate of learning experience from the workplace. Strong enthusiasm and self-motivation can help establish a positive relationship at the workplace. Able to build a website using JavaScript and React. Having experience with MERN development and being capable to design the modern responsive website. As a personal project, "MERN full stack" and "Restaurant project" showcased in the portfolio can prove my skill and knowledge about the web development
